Professional Skill

- Html/Html5
- Version Control
- Css/Css3/bootsrap
- JavaScript/node.js
- React
- Linux/git/gitHub

Language

English

Malay

Aimi Amirul Bin Fairul Azlan

Project

Chrome Extension (Save Tab)

- Created a manifest.json file with necessary permissions
- Developed a popup.html file containing a button
- Wrote a popup.js file to handle popup window functionality
- Created a background.js file to save tab information to storage.

BlackJack Game

- Created a shuffled deck of cards
- Dealt cards to the player and dealer
- Calculated the hand values
- Allowed the player to hit or stand
- Determined the winner.

Color picker

- Created an input element with type="color"
- Added an event listener to detect changes in the selected color
- Used the selected color to update the background color of the page or specific element
- Customized the color picker using CSS.

Experience

Hair Stylist Website (Freelance)

2023

- Utilized my skills in HTML, CSS, and JavaScript and added some Css Animations
- Hosted the project on Github so that my client can see what's the current update
- Made the project available to view on my e-portfolio
- Added the project to the 'Recent Projects' section of my portfolio.

Front Office

2022 (Currently work here)

Double Happiness Sdn Bhd Manjung, Perak
(lodging services to travelers and tourists.)

- Providing information about products, services, or policies
- Handling customer complaints or concerns
- Booking appointments or reservations
- Processing payments or transactions
- Maintaining customer or client records
- Submit and proof a daily sales report to manager

Achievement and Leadership

- Improving guest satisfaction
- Increasing revenue through upselling and cross-selling
- Implementing new technologies
- Training and developing staff in Microsoft Excel to upgrade the way we handle report more efficiently

Html Website (Freelance)

2021

- Helped him build a simple website from scratch using HTML
- Discussed project requirements and brainstormed ideas
- Provided guidance and support throughout the development process
- Wrote a detailed report after completion, documenting each step of the process to reinforce my own knowledge and aid in future projects.
